

New Directors: Amalie Bandelier and Diana Shiel, CTREE Admin Assistant, Lisa Cotter

New Faces At CTREE...

CTREE is proud and grateful to have received a \$1,000 grant from the Bridgehampton Association. This grant ensures our summer programs with students from the Bridgehampton School will continue. CTREE and the students had so much fun and we are all looking forward to this year's session!

CTREE welcomes our new directors, Diana Shiel and Amalie Bandelier! Diana joined our board in the fall and Amalie has joined this spring. They are both enthusiastic additions to our great board - we are thrilled to have them!

A huge thank you to out-going director, Colleen Olson who is on to new endeavors but will continue to support CTREE on our Advisory Board.

Welcome Lisa Cotter, our new Administrative Assistant. Lisa began working in February and you can find her in our office most Tuesday and Thursday afternoons! She will be assisting in all aspects of our program. Stop by and say Hi!

2017 Accreditation

CTREE has received re-accreditation by the Professional Association of Therapeutic Horsemanship International (PATH Intl).

The accreditation process ensures that we have met established industry standards for best business practices, program safety and

Life Skill Learning at CTREE: The Rules of the Road...

CTREE's Equine Specialist in Mental Health and Learning volunteer

equine welfare. Thank you to the staff and volunteers who assisted us with the process!

Our PATH International certified professionals must maintain their certification with 20 hours of continuing education every year! Our instructors and equine specialist are always busy learning new teaching skills, new techniques for working with our participants and how to keep our horses happy and healthy. This ensures our participants enjoy great programs and lessons!

Tom, created realistic-looking traffic signs for our participants to use while leading or riding their horses in lessons.

Besides learning about signs participants will see in the community and on the street, this activity addresses map reading, sequencing, transitioning, steering skills and street and traffic safety - not to mention it's tons of fun!

Spring Lessons: March 26 - June 9

Mose Knows

It's official - Spring is here! My winter coat is falling fast and we're moving to our outside stalls this month and not a minute too soon - I miss the view of green grass (yum!) and swans in the pond. So look for us outside and around the corner when you come to lessons. We can't wait to see all our participants and volunteers!
